Team

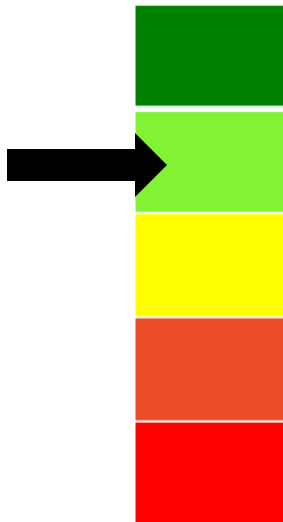

Leaders

Owen Camuso	Resources for Human Development
Marsha Cohen	Homeless Advocacy Project
Silvana Mazzella	Prevention Point

Leadership Team

Theresa Singleton	Federal Reserve Bank
Fritz Smith	Visit Philly

Our 100 Day Goal: Today is Day 19!

Our 100-Day Goal:

In 100 days, will **resolve the homeless condition for 33% of individuals** on our list and ensure that 33% of others on the list are located and identified, assessed for housing and service needs, and on their way to being connected to appropriate programs and services

Progress on our Placement Goal:

No placements have been made. Team has developed input output map for non-chronic homeless individuals and is developing system map, needs gap, and ask list

Overall Plan & Strategies

1. **Outreach**, engagement, and assessment
2. Data Analysis regarding current *and* revised non-chronic **LIST**
3. Brief **needs assessment** of individuals and their resource needs
4. Ongoing **targeted engagement** and individual needs assessment of identified individuals
5. **Mobilization of resources** to meet housing and psychosocial needs of individuals
6. Develop and enhance **protocol (the system)** for targeted individuals to access mobilized resources

Current Activities to Implement Strategies

Assessment: Identify inputs and outputs for individuals

- Map needs, assets, challenges for non-chronic individuals

System/Process Mapping (next two weeks) to identify:

- Housing resources for non-chronic individuals
- Steps to obtain housing
- Supportive services needed to engage people in housing
- Supportive services needed to eventually keep people housed

Developing, analyzing, maintaining a more accurate **List:** (next two weeks and through Day 70)

- Current lists have been merged
- Removal of chronic individuals underway
- Brief survey tool developed
- Identifying VI or other assessment tool
- Survey and assessment with those known to be on street now

Sub Goals and our Progress to date

Sub-Goal	Progress in 19 days
1. Identify Inputs and Outputs for Individuals	Completed
2. System/Process Mapping	Team gathering info on services, access requirements, barriers
3. Developing, Analyzing	Four lists currently merged, brief analysis of portion of list to identify geography, documented mh, sa, resource needs
4. Building More Accurate List through Targeted Outreach and Assessment	Team will select assessment tool by July 20, begin targeted assessment July 25
5. Mobilization of Resources	Team members identifying first list of known resources and gatekeepers by July 20
6. Developing Meaningful, Sustainable Ask List	Initial draft of Asks developed: Data and Information Management, Policy and Access Waivers, Housing Resources, Supportive Services

Challenges

- HIPPA: Data sharing and list merger can only be done by one to two individuals
- Multiple teams engaging in similar processes
- Limited housing resources for non-chronic individuals
- Getting sub-teams together and keeping larger team intact

Key Accomplishments To Date

- Input / Output Map
- Merger of lists
- Initial analysis of selected outreach data
- Clearer picture of next steps
- Mapping underway
- Most members of team still actively engaged
